

## Welcome to Rodeo Bull 2 Hire

If you are looking to put on the ultimate entertainment for your party then you have come to the right place because when you hire your bucking bronco from us your getting in the professionals, With years of experience in supplying inflatable equipment and multi-ride machines to customers you can be sure that you are going to get the best service and best value for money combination,

All our multi-ride machines are the deluxe models and all are less than two years old, and your machine will be delivered to the venue of your choice, set up and operated by one of our experienced operators who will be polite and friendly and will join in the fun as well as motivate all your guests into having a go,

You can hire the popular and original Rodeo Bull with its real cow hide and soft rubber horns as well as its red flashing eyes and leather saddle, or perhaps you would like to replace it with a sheep instead which has proved to be very popular, or for that Christmas party you could have our reindeer with his red flashing nose, whichever attachment that you choose is sure to be a winner,

Part of the set up is the inflatable landing bed and we are able to offer a choice of colours shapes and sizes as well as a corral themed bed, there is also a winter themed inflatable bed to use with the reindeer which makes our reindeer that little bit more special,

A free inflatable marquee can be provided for you thus making sure that your event can continue when the good old British weather decides to let us all down and we can supply generators too for when there is no mains power supply available so there is nothing to stop you from having that party,

The rodeo bull can be as fierce or as friendly as you like when the operator uses the manual controls, or he can use the fully programmed controls to make sure that everyone gets exactly the same ride and there is a timer for each individual ride and another timer for the best overall time of the event,

Your party is as important to us as it is to you and our reputation is second to none so once you have used Rodeo Bulls 2 Hire we are confident that you will recommend us to others and over the years we have provided our machines to many people and all kinds of events and we get lots of repeat bookings due to our customer care, if it's a small family party or a corporate entertainment day you wont be disappointed.

Also available to hire are our surfboard simulator and snowboard simulator machines, again these machines are very popular and are ideal for those summer beach party's or Christmas entertainment,
